***Claim Rejections - 35 USC § 103***

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-18,20-43 are rejected under 35 U.S.C. 103(a) as being unpatentable over Ichise et al (4897714) in view of Tuttle (6509829). Ichise et al shows the details of the seat mounted monitoring system except for the wireless connections and identification. It would have been obvious to one having ordinary skill in the art at the time the invention was made to provide the system of Ichise et al with wireless identification and security tag and related wireless connection as taught by Tuttle since it will enhance security. It is also noted that the use of touch screens is well known and would be obvious to so modify Ichise et al.

1. Claim 19 is rejected under 35 U.S.C. 103(a) as being unpatentable over Ichise et al and Tuttle as applied in paragraph above, and further in view of Wallman (6048024).

It would have been obvious to one having ordinary skill in the art at the time the invention was made to provide the seat of Ichise et al with fans as taught by Wallman since it will make the passenger more comfortable.

1. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

1. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Galen L Barefoot whose telephone number is 703-308-2567.
